

PRACTICE ANALYTICS

Transitioning from a fee for service healthcare organization to a value-based care organization requires strategic insights and decision making capabilities.

WhiteSpace Health (WSH), Omega's proprietary, cloud-based business intelligence and analytics tool, is the perfect solution to maximize efficiency and increase revenue.

By integrating data (structured and unstructured) from multiple clinical and financial sources, including patient portals, Electronic Health Records (EHR), Practice Management Systems (PMS) and billing systems, we can provide you with actionable insights at an enterprise or individual provider level.

How does your business benefit from Omega's advanced technology solutions?

- Convert data into actionable insights
- Connect all your data sources
- Analyze unstructured data
- Natural Language Processing (NLP) with scientific data

Cutting-edge analytics and business intelligence to help you make informed and strategic decisions
