

REVENUE CYCLE ANALYTICS

The health of your business is dependent on how smart you can work on your Revenue Cycle Management process. This requires breaking down the data silos and working across the healthcare revenue cycle continuum.

A fast and low impact cloud based solution with minimal or zero IT support will help your business tremendously.

Omega Whitespace provides you with a highly configurable and interactive BI platform. With this, you can **view your entire client base data along with providing access to your clients in a customized solution.**

You can also create thresholds and performance indicators, for an at-a-glance score-card of your business.

Omega Whitespace RCM Analytics Module is a perfect tool to:

- Gain high impact and actionable insights to enhance productivity and bottom line
- Manage clients base by setting KPI's, thresholds and prioritize the improvements
- Provide dashboard access to client and manage expectations effectively

Realize huge value from our advance analytics solution:

- Daily views of billing volume categorized into, pending, submitted and on hold state
- Analyze effectiveness of your claims processing such as 1st time right, reasons for rejections etc.
- Critically evaluate your Accounts Receivable with inputs on AR value, AR aging
- Reports on collections by location, CPT, providers and custom filters
- Analytics on denials and write-off
- Payer analysis reports
- Synergized modules to better manage client and RCM vendor side

Gain unprecedented visibility into your RCM with cutting-edge BI and analytics solutions
